Pharmacies and Drugstores need to stop selling tobacco!

Pharmacies and Drug Stores need to stop selling tobacco!

Dear Drugstore Manager,

I am a consumer who shops at this store and cares about my community. As a pharmacy, you play an important role in promoting public health. Therefore, I am concerned that your store still sells tobacco. It is hypocritical to sell products that cause harm alongside those that are meant to heal.

I respectfully ask that you stop selling all tobacco products in your store. Please stop legitimizing tobacco in our community!

Sincerely,

Produced under TCS Grant #00-9381 • A Project of CMA Foundation
